

DEPARTMENT OF CHEMISTRY

IIT DELHI

About The Department

The Department of Chemistry, established in September, 1963, is one of the twenty seven Departments/Centers/Schools of IIT Delhi. The department has twenty four distinguished faculties trained at renowned Institutes in India and abroad. In addition, the department is supported by a dedicated team of staff members. One of our key objectives is to create good quality human resource. The Department offers a two years M.Sc programme, a two years M.Tech. programme and a Ph.D programme. Doctoral and post-doctoral research are carried out in all major areas of chemistry and allied sciences. The department is adequately equipped with state-of-art analytical facilities to carry out modern day chemistry.

ABOUT THE MASTERS PROGRAMME -

The department offers two years M.Tech (Molecular engineering), M.Sc programmes. The department offers several core (compulsory) courses and many electives. The course materials are so designed such as to facilitate and encourage discussion not only at the fundamental level but to also expose them to new and exciting trends in present day research.

Lab Facilities-

- Single crystal X Ray diffractometer
- Powder X Ray diffractometer
- DPX-300 NMR Spectrometer
- Mass Spectrometer
- FTIR Spectrometer
- Differential Scanning Calorimeter
- UV-Visible spectrophotometer
- Thermal gravimetric analyzer
- High Pressure Liquid Chromatograph
- Gel Permeation Chromatography
- C,H,N Analyzer
- Fluorescence Spectrometer
- Circular Dichroism

AREAS OF RESEARCH

Some of the major research areas are-

Organic chemistry-

Asymmetric Catalysis, C-H and C-F activation, Total Synthesis of small molecules, Catalysis by ionic liquid stabilized transition metal nanoparticles, Natural product synthesis and their biological studies.

Physical Chemistry-

NMR methodology, Crystal chemistry, crystal engineering and supramolecular chemistry, Synthesis and applications of nanocrystals, Optical spectroscopy, advanced fluorescence techniques, environmentally friendly solvent systems.

Biochemistry And Biophysical -

Extremophiles and extremozymes, regulation by small RNAs in Bacteria, Chemical biology of peptides and proteins, Biomolecular modeling and simulation

Inorganic chemistry

Synthetic main group and organometallic chemistry, Homogeneous and heterogeneous catalysis, Metal-organic frameworks, Inorganic Polymers, Coordination chemistry of silicon, germanium and tin.

Courses of study

Some of the major courses offered are -

- Cheminformatics and molecular modeling
- Material characterization
- Applied spectroscopy
- Design and synthesis of organic molecules
- Synthesis of industrially important inorganic materials
- Chemistry of industrial catalysis,
- Quantum chemistry
- Applied biocatalysis
- Chemistry of hetrocyclic compounds
- Reagents in synthetic transformation
- Molecular thermodynamics
- Group theory and spectroscopy

About faculty coordinators

SHASHANK DEEP

(M.TECH)

ASSOCIATE PROFESSOR

M.Sc., IIT Delhi

Ph.D., IIT Delhi

Post Doctoral Fellow: UTHSCSA, San Antonio TX

Areas of interest-

Biophysical studies of protein folding and protein aggregation, Biophysical studies of receptor interaction with ligands, Methodology development for rigorous analysis of experimental data.

SELVARAJAN NAGENDRAN

(M.SC)

ASSOCIATE PROFESSOR

Ph.D. IIT Kanpur,

Post Doctoral Fellow, Tohoku University,

Research Fellow: Institute of Inorganic

Chemistry, Georg-August-University,

Germany.

Awarded the Honorable Mention (Cash Award of USD 100 and a copy of the IUPAC "Gold Book") for the 2003 IUPAC Prize for Young Chemists by the International Union of Pure and Applied Chemistry (IUPAC), USA.

Areas of interest -

Synthesis of NHC analogues of heavier group 13 and 14 elements, bioorganometallic chemistry and studying the applications of novel metallocenophane based polymers

Research Funding-

The faculty members attract financial support for their research activities from DST, DST-CERI, DST-NRDIO, DST-GITA, NASF, National Science Foundation(U.S.A), RSC (Cambridge, England), CSIR, UGC, Department of Energy (U.S.A) etc.
